Seattle, Wash., July 7 .-- Since Tracy, he escaped convict, left the Johnson me Saturday at Port Madison, ablutely no real clue has been discovged as to his whereabouts. Forty Inlans are watching for the murderer in

The coast of the Kitsap is being trolled. Guards are lying in ambush n the approaches to Bothell. The auhorities are waiting for the next apparance of the convict. They can nake no movement until he again hows himself. For the time being fracy has vanished as completely as if swallowed by the earth.

The bloodhounds from Walla Walla penitentiary arrived tonight at 3 o'clock. They came to Seattle too late to be taken to Port Madison, as at first intended. Unless the murderer shows up again in Kitsap county the hounds will not be taken across the sound. The tug Sea Lion has been under team all night, ready to leave at a coment's notice, with the animals on board. She was prepared to leave for any place on Puget sound where the criminal may put in an appearance.

Vital Statistics Show an Alarming Increase in an Already Prevailing Disease-Are Any Exempt?

At no time in the history of disease has there been such an alarming increase in the number of cases of any particular malady as in that of kidney and bladder troubles now preying upon the people of this country.

Today we see a relative, a friend or an acquaintance apparently well, and in a few days we may be grieved to learn of their serious illness or sudden death. caused by that fatal type of kidney trouble-Bright's disease.

Kidney trouble often becomes advanced into acute stages before the afflicted is aware of its presence: that is why we read of so many sudden deaths of prominent business and pro-fessional men, physicians and others. They have neglected to stop the leak in

While scientists are puzzling their brains to find out the cause, each individual can, by a little precaution, avoid the chances of contracting dreaded and dangerous kidney trouble, or eradicate it completely from their system if already afflicted. Many precious lives might have been, and many more can yet be saved, by paying attention to the

Mrs. Leopold de Rathschild gave a large gar-den party for them at Gunnersbury park. Sir Edmund Barton had an engagement for a speech at the meeting at the Mansion House, and Sir Gordon Sprigg and Premier Ross made addresses at the meeting of the British Empire League, over which the Duke of Devon-shire presided. While there is an abundance of oratory over the sentimental aspects of imperialism, there is . \ck of authoritative information respecting the business of the conference. Nobody

has undertaken to explain Colonial Secy. Chamberlain's views of steamship subsidies and preferential trade, yet the colonials do not doubt that he holds strong opinions on both subjects. He is credited with a willingness to meet the colonies, not perhaps half way, but more generously than his colleagues, in defending British shipping interests. For preferential trade he is a strong advocate, but he chooses phrases cau-tiously. He is said to be willing to relax the grain and wine duties in favor of the colonies, if they in turn will lower their tariffs against England. The results of mutual preference he will be likely to explain as gams for free trade. There are optimists among the visiting statesmen who assert that Sir Michael Hicks-Beach's opposition may be over-come if the line of least resistance be attacked and the duties actually in force are removed on both sides in the interest of less restricted commerce. Preferential trade will in this way beome freer trade between England and

Washington, July 7.—The state de-partment has received a cablegram from United States Minister Bowen at Caracas stating that the Venezuelan government has communicated to him the fact that President Castro has decided to personally lead his troops against the revolutionary forces in the field, and that Vice President Gomez has assumed charge of the executive

branch of the government.

The news conveyed in Minister Bowen's dispatch is regarded in different lights among South American diplomats in Washington. The prevailing view is that nothing but a most acute situation would cause Presnost acute situation would cause Presdent Castro to drop the reins of gov ernment at Caracas and take personal charge of the Venezuelan army at Valencia, and in those quarters it is firmly believed he is to lead a forlorn hope, and must surely succumb to the threatened heavy onslaught of revolutionary forces.

In other quarters, however, confidence is expressed that Castro will repel the impending attack just as he has done many others that have confronted him in the past and further en-har • is record as a fighter.

Valencia is a town second in importance only to Caracas, and lies about 100 miles from the capital, almost directly west. It is the base of military operations; has a large population, and in many respects is the most important own in the republic. It is regarded here as the open sesame to the capital itself, and it is believed its capture would herald the early capitulation of the seat of government and the occu-pation of the "yellow house" at Caracas by the revolutionary leaders.

#### MORGAN IN BERLIN. Declares that the Kaiser is Really a Great Man.

New York, July 8 .-- J. Plerpont Morgan's arrival here caused a great stir, cables the Berlin correspondent of the Herald. When Mr. Morgan, accompanied by his daughter, sauntered through Unter den Linden he was eas-

toon of himself in Lustige Blatter showing him lying at full length over a map of America and stretching out his hands to England and Germany.

Asked about his meeting with the kaiser, Mr. Morgan said:
"I am very sorry, but I cannot say anything about the kaiser. He was exceedingly courteous to us. He is a great man, for a fact."

Clement A. Griscom who was with the party on boarad the Meteor said: "The Anglo-Saxon countries—the United States, Great Britain and Germany—are destined to rule the sea and commerce. Germany is a growing nation. The kaiser is fully acquainted with the relations between the transationatic shipping company, which transatlantic shipping company which Mr. Morgan has formed and the German steamship companies. In fact, the kaiser is acquainted with all the details, and shows a marvelous grasp of current affairs.

"While we were on board the Meteor he assumed charge and directed like a lifelong seaman; in fact, he would have led the Meteor in as a winner of the first prize except for the large han-dicap given the boat.

"The kaiser sympathizes with our ef-forts in doing away with unnecessary competition between the various trans-atlantic lines and effecting economy. "I have no doubt the kaiser is be-coming more and more popular, not only among his own people, but in other countries. When Prince Henry visited the United States a member of the New York yacht club decided to make a return by coming over to the meeting at Kiel. I am sure that the attendance of an increasing number of Amer-ican yachts at Kiel is now certain.

"The kaiser expressed admiration or Mr. Morgan. I think he believes the United States is a good country to mod-el after. There is no reason to fear rivalry, either, between Germany and the United States from a commercial standpoint. All may work together for a common end."

He said he was the fourth

Protests were sent to Rome and later the 29 priests as well as Bishop Matz went there to state their case before the vatican. The fight has continued without success since 1888. In 1901 Bishop Matz is alleged to have had Mr. Cushing arrested in Rome for forcing himself into his presence, and it is said Cushing was put in jail by the Italian authorities, who openly admitted that it was in retaliation for the lynching of Italians in New Orleans.

He alleges that he was treated with great indignity and that Ambassador Meyer and Consul de Castro were negligent in protecting him as an American citizen. ## HOPE TO SETTLE THE STRIKE SOON

Chicago Freight Handlers' Union Working for One.

IS A LACK OF UNANIMITY.

Men Called Out by a Committee Which Was Instructed to Do So Unless Demands Were Granted.

Chicago, July 7,-Hopes of a speedy settlement of the strike of the Freight Handlers' union, which was declared today, are entertained by officials of the union and members of the state board of arbitration. The officials of the union at a conference tonight told Chairman Job of the board of arbitration that they were willing to permit employes of the different companies to meet officials of the same to discuss the wage scale providing a joint conference should be held at which officials of the union would be

permitted to act as advisers to the men. The arbitration board is now working on the matter in an effort to bring about a conference between the railway managers and committees representing the men. As the railroad officials have offered this step from the beginning of the controversy, there is lit-tle doubt the strike can be settled sat-isfactorily to both sides if the confernce is arranged.

Lack of unanimity already permeates the strike. The Chicago Federation of Labor was ignored when the order was issued for the men to quit work, and its executive officials are somewhat offended and arei nclined to let the freight handlers fight out their battle in their own way. There are 12,000 freight handlers in

and about the various freight houses of the 24 railroads centering in Chicago. Of this number more than ,000 are now involved in the strike some of the men who quit work today

Notably this was the case in the freight house of the Lake Shore & Michigan Central railroad. The men there employed were receiving all the consideration they had asked. They were forced to strike, however, by the order of the executive committee of their union. Before going out the men informed the railway officials of the situation and said they would seek an immediate return order from the au-thorities that had ordered them out. The sudden suspension of customary operations by the freight handlers to-day occasioned considerable trouble in and about the various railroad warehouses and stations, but the inconvenience and delay were but a drop in the bucket to what will happen tomorrow and later in the week if the strike

shall not be settled sooner.

To add to the present difficulties of the railroads, the Teamsters and Truck-men's union threatens to join in a sympathetic strike. If this shall occur, through Unter den Linden he was easily recognized by his resemblance to the pictures and cartoons with which the German public have been almost daily entertained.

Sympathetic strike. It this shall occur, it will affect all incoming and outgoing freight of every kind. Every railroad in Chicago today accepted all freight offered. While it was confessed by several railroad officials that freight At one of the news stands Mr. Mor-gan lingered long enough to see a car-toon of himself in Lustige Blatter, was not being moved as expeditiously as heretofore, yet it was said the larg-est part of it was being handled well. The various freight houses and yards, however, disclosed a large accumula-

tion of unmoved freight and cars loaded with freight. There was no trouble or disorder in or about any freight house. Anticipating the padhilities of such a strike, the railre companies had brought to Chicago a number of men to take the places of the strikers. These men were intercepted by pickets and most of them were induced to join the Freight

Handlers' union. The strike was called by a committee appointed at a meeting of 1,000 freight handlers held last night. The commit-tee was instructed to call a strike within 48 hours unless the railroads should meet the demands of the men at once for an increase in wages, extra pay for overtime and holidays and recognition of the union.

Action on these instructions were taken sooner than had been expected. The committee went first to the Michigan Central, Illinois Central and Wis-

igan Central, Illinois Central and Wisconsin freight houses on the lake front. The men walked out with cheers and marched across the viaduct on Randolph street with their union cards tucked in their hats.

By messenger and telephone, according to the strike leaders, all other members of the Internatinoi Freight Handlers and Warehousemen's union were called out. At noon President Curran of the union reported that his men were all out and that it was almost impossible for any freight to enter Chicago or leave it.

ago or leave it.

Many of the railroads had small forces of men previously hired on hand-when the strike was called, and by adding to them men from other departments, managed to handle perishable commodities. In the hiring of non-union men, it is said, the railroads run a serious risk of bringing about a strike of the teamsters, who recently won their fight from the packers. The teamsters, it is said, will refuse absolutely to have anything to do with freight in any way handled by non-union help. The men called out include foremen, check, recheck, receiving and delivery clerks, sealers, callers eighmasters, stevedores, coopers and

Chief of Police O'Neill, when notified that a strike had been called, sent orders to his subordinates to make every preparation to preserve order. Two hundred and fifty men were called in from outlying stations to form a re-serve force to be stationed at the down town stations. From the stations the men went in squads to the different
